

P₁₀

PIPE STRESS TRAINING

'P₁₀ is a software program for analysing your pipe system'

YOUR EMISSIONS IN CONTROL

P₁₀ Pipe-stress-training

Prices

For a **P₁₀** training, following rates are applicable per hour per student:

 till 3 students:	€ 120,00
 from 4 to 6 students:	€ 110,00
 from 7 to 9 students:	€ 100,00
 from 10 students up:	€ 90,00

In addition 4 hours will be charged for preparation, travel time and questions/support afterwards.

Training facilities

Training can be done in our facility in Nieuwerkerk a/d IJssel up to 10 persons.

Training can also be arranged at client's premises.

In case the training is done at client's premises, a beamer or screen with HDMI connection is required.

As last it is also possible to arrange a separate location for a training, when several parties or students from different locations need to be accommodated in a central location. In case the training is done at a separate location, a beamer or screen with HDMI connection is required.

In all cases, the students require a laptop or desktop. In case these cannot be facilitated by the client, Array is always willing to facilitate. However it is preferable to bring your own laptop in order a demo of **P₁₀** software can be installed and used after the training as well.

P₁₀ demo version

Every student receives a demo version of **P₁₀** software for the training, that can be used also after the training. The demo software allows the students most of all features of **P₁₀**, however limited to 30 members. Besides all results and reports will be given with a notification. In order to enable the full version without notifications, a license can be obtained by contacting Array Industries.
